5:30	Patrol Dinner	Patrol Sites
7:00	Patrol Meeting / Self Assessment	Patrol Sites
9:00	Cracker Barrel: Movie Night	ERC
9:00	Patrol Campfires	Patrol Sites

GILWELL GAZETTE MORNING

Good Morning Everybody!

I hope you were able to enjoy a restful sleep last night and were gently woken to the sweet song of little birdies heralding the dawn of a brand new day on Gilwell. Nothing beats the sound of nature in the morning! Of course as long as it isn't overwhelmed by the sound of mosquitoes!

Wasn't that a great experience yesterday when you had the chance to welcome a Venturer into your patrol. I know they enjoyed their time with you, and I am quite sure they are going to have some fun stories to share.

The Campfire program that you scouts put on last night was just fantastic. I mentioned yesterday that we were looking forward to it and speaking for everyone on staff, you certainly put on a really good show. Now you can take what you have learned back to your home units and start enjoying the benefits of a well-planned and well-run campfire. I trust they will have as much fun as we did.

DAY 5

5/22/16

The Chaplin's Corner – Day 5

On day 5, you will learn about self-assessment, feedback and how to except the information being given. If we believe in oneself, then we trust and believe in God.

O God, inspirer and teacher of all people, send out your light and illumine us. Give us a deep and clear knowledge of ourselves. Help us to have a growing knowledge of the world. Confirm in us the holiness of true reason. Strengthen in us the aspiration towards noble thoughts.

Amen

Frank Trusso Jr.

Weather Rock Forecast

Turned into a Rolling
Stone and stormed off.

Morning JA winner

BUFFALOS

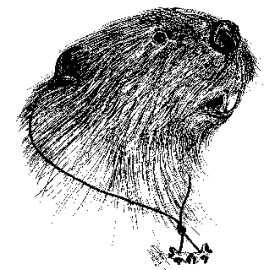

Beavers are on a (log) roll!

Hello from the Beaver Patrol – Armed to the what? Armed to the Teeth! We are having a fantastic time here at Wood Badge! We got off to a scary start when our Patrol member Joe was having back problems and said that he might not make it here on time – the concern was that, um, well, he both had our food and our way of transport back to the campsite. AAARGH! Well, he was able to get here, and we were in good shape. Not to worry, ol’ Joe will get better!

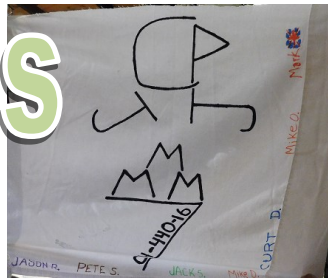

Next, we had a real bonding experience with the Round Robin, especially with the spider-web exercise. We got to know each other really well for that one. Perhaps too well...I think I’m in love...

We are looking forward to our dinner and the evening activities, and we are so pleased with the Venture Crew who helped us throughout the day – a special shout-out to Crew members Hershey and Sunny for helping us carry our gear to the site. Peace and Blessings to all!

Bobwhites

The Bobwhites started the day on a high note, gathering early ready for weekend two to get under way. We are honored to have conducted the flag raising for the start of day four and SPL Jimmy seemed ecstatic with our gift. We are happy to have provided the locating device for the Service Patrol beads.

After repair of one broken tent pole (stuff happens) the Covey's nest was set and ready. One thing that we can all agree on, regardless of patrol is that COFFEE IS A STAPLE!!!!

EEK a Mouse!!!!
There was a mouse in
the shed and it was
this big

Eagle

Eagles Soaring High

We the eagles are soaring so high we see past all this rain, with rolls of sun light heading our way. We have had a wonderful break but so glad to be back at this wonderful camp. The totem was final displayed to the approval of all with the wings spread wide in its glory.

We learned a lot about managing change and are excited to finally display our patrol project.

GO EAGLES.

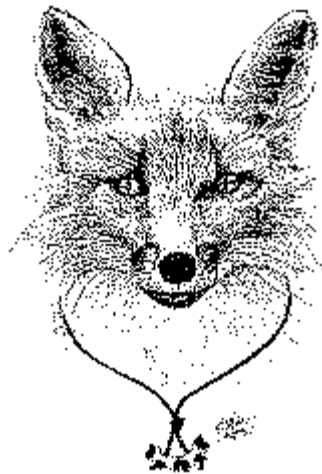

Fox

FOX

It's hard to believe it's been 4 weeks. Seems like we were here last weekend. As we gathered here this morning we were welcomed by all our cheerful leaders and rain!! We all walked, pulled, pushed, carried and picked up our supplies back to our campsites. Mother Nature slowed all of us down but we had a plan and hopefully, got everything set up. As this day moves forward you can feel that everyone is more comfortable. It is so nice to see everyone becoming friends.

Caption of the Day!

Give the scribes your best caption for the above picture. Winner will get their name in the Gazette. Suggestions must be submitted before the end of lunch and can be placed in Scribe mail box located by the Scribeville PCs in the ERC.

Antelope

Antelopes getting back to camp for weekend #2... Our day started by assembling in the parking lot with all of the other patrols. We were preparing all of our gear on to one wagon to transport back to our campsite. We were greeted by our Venturing Crew Guides, Maddie and Skyler, to escort us back following a through campsite briefing. We worked together as team and made it successfully.... Despite the rain. At Augustus in the morning, I presented all of the patrols with their name plates, because together, we are Crew 1. We enjoyed cooking brats in the parking lot. We were joined by Steve, Dan and Chuck for lunch. As we were eating, one of the staff mentioned, this was the first hot lunch they had ever had on Day#4. The coolest part of the day was putting up the flag of our country, as a patrol, in the front of Augustus. After we put it up the flag, as we stood there looking at the flag and each other, we started to sing the Star Spangled Banner. As others noticed, they joined in . It was a great feeling. What a better way to show duty to our country. In the afternoon, we worked on team building activities lead by the Venturing Crews. There were challenges, but most importantly we grew as a patrol. Now it is time to sign off and make some dinner.... AND A HORNS UP, HOOVES DOWN CAMPFIRE!!!

Your Scribe,
Mike

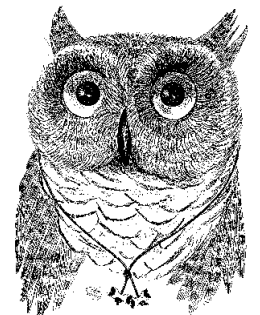

Owl

Owls Hoo Hoo Hoo Hoo

Campsite is set up- we have the most awesome site. Nice job setting the site up. Let it rain Let it rain, we will wash our feathers and reservations are in at the Holiday Inn. Hung our bear sack, but had to take it down, the owls were hungry. A hoot out to the Antelopes for the wooden center pieces. Beware of the owls when night falls.

Bear

A few facts about who makes
Da Bears great.

Bruce Banfield has been in scouting for less than a year. He is currently a Den Leader for Pack ----- . He is taking Wood Badge because he can. People don't know that he rode a motorcycle from California to Ohio. Bruce's favorite hobby is brewing, shooting and cooking, can't wait to taste his cooking. If and when he has spare time he enjoys reading.

Dan Carlton has been in scouting for 25 years. He is currently Scoutmaster for ----- and a Den Leader----- . Dan has held several positions in the past which include Assistant Cubmaster, assistant Scoutmaster, and Junior Assistant Scoutmaster. He is taking Wood Badge to further his scout training and adventures. People don't know that when Dan served in the military he died twice. I am glad he is with us today. Dan's favorite hobbies are woodworking and art. In Dan's spare time he enjoys giving tattoos.

Kevin Crews has been in scouting for 5 years. He is currently Assistant Scoutmaster for-----and he has served as Den Leader for----- . He is attending Wood Badge to better himself as a Scout Leader. People don't know that when you poke Kevin in the side he pees his pants. So don't do it!!! Lol Kevins favorite hobbies are camping and hiking. In Kevins spare time he enjoys spending time with his family.

John Coverdale has been in scouting for 15 years. He currently is Assistant scoutmaster for ----- and an Advisor to Crew---- . John has served as a Troop Committee Member and an Associate Advisor. He is taking Wood Badge to better himself and to find ways to improve his Troop.

People don't know that John is a retired from the Navy and he like celtic music. John's favorite hobby is auctioning. In John's spare time he enjoys working with his hands and auctioning.

“Organizations that encourage play find themselves with profitable ideas, because the best insights often come as we explore through play“. Fish Philosophy

Buffalo

Greetings from the Buffalo patrol!

It is with a heavy beard the Buffalo informant Troop 1 of our recent loss. One of our herd members, Tracey, was injured while roaming the prairies of Ohio and Pennsylvania. As the story goes, Tracey was defending the Woodbadge beads from being chewed up by a rogue lawn mower. During the intense struggle, Tracey lost the beads to the overpowering blades and threw his back out. This unfortunate incident not only left the Buffalo patrol without a compatriot but also without a Quartermaster over the break. Buffalo, however, are a resilient bunch. As a herd we put hoof to the ground and managed not only to put grain and grass on the table for the second week but also complete all remaining tasks with nary a second to spare.

Despite our losses and tribulations over the break, the Buffalo spirit remained strong. The Buffalo worked at ludicrous speed to close all remaining task holes while the country, moving at Ralph speeds, finally ruled the Buffalo the national mammal of these great United States of America. Although we do feel the sting of Barbie claiming she should have been named the national Mammal (she ran a vicious campaign against us based on taste), the Buffalo remained strong and stampeded to a strong finish. Great job Buffalo! STAMPEDE!
